Dear Mr. Copfer:

On September 8, 1998 a field compliance inspection was conducted for your notice, UTU-070676, which includes unpatented mining claims UMC 329271, located in Section 23, T. 19 S., R. 8 W.. This notice was accepted by our office on March 16, 1990, under the 43 CFR 3809 regulations for surface management. Based on our inspection, we have determined the surface disturbance related to your mining operation at this time does not warrant a Notice of Intent, and we are informing you this notice case file is closed.

In the future, if your mining related activity approaches the scope of notice level use, you must re-notify this office at least 15 days prior to that point.

Thank you for submitting your notice and for your support in proper management of public lands.

Sincerely,

Rex Rowley
Field Manager
